CULINARY INNOVATION AND NEW PRODUCT DEVELOPMENT

TRIAL PROGRESS (50 – 100 WORDS)

The obstacle in this trial is, it takes a long time to make the meat tender so that it makes the process of making shredded take time. Then the smoky taste of the meat decreases, it is reduced after roasting the meat to steam it so that it is tender, so that it makes the smoky taste in the meat decreases. For the texture and also the aroma is similar to shredded. But it is necessary to be drier again, so that it is really like shredded.

NOTES :

1. Spices nya sudah terasa, kalau bisa tambahkan seasoning lagi saja biar lebih enak
2. texture kurang halus, masih basah kurang kering
3. –
4. Enak!!
5. A bit too spicy, could use some more sugar. Texture is still too meaty for me
6. It needs to be drier for a longer shelf life
7. Ad taste smokey, namun sedikit dominan di asin dan pedas. Mungkin bisa di adjust agar bisa lebih netral, dan tekstur apa memungkinkan di buat lebih kering sedikit
8. A bit too oily n' wet
9. texture kurang krispy untuk abon yg lain sudah ok
10. ok
