

CHAPTER V

CONCLUSSION AND SUGGESTION

5.1 Conclusion

In conclusion, Roa fish serundeng features two main ingredients smoked roa fish and grated coconut. This product boasts a complex flavor profile; the roa fish lends a fragrant smoky aroma, while the grated coconut adds sweetness. The texture of the product is already quite good, thanks to the addition of a few spoonfuls of water into the bowl containing the roa fish before steaming during the second trial.

5.2 Suggestion

Further research and development are recommended to improve the texture of roa fish serundeng. To optimize the production process and provide better product result, need to find out more about processing method or techniques to get much better product.
