1. Approval Recipe

CULINARY INNOVATION AND NEW PRODUCT DEVELOPMENT

APPROVAL RECIPE

Recipe Name : Betel Leaf Jelly Drink
TITLE OF C&D : Utilization of Betel Leaf Extract in Jelly Ready to Drinks
Yield : 4 Portions/400 g
Main Ingredients : 20 g Betel Leaves
Ingredients :

- 20 g Betel Leaves - 5 g Jelly Powder
- 30 ml Lemon - ½ tsp Salt
- 500 ml Water
- 300 g Aloe Vera
- 30 g of Sugar

Method :

1. Cut the aloe vera into a smaller size, then add 250 ml of drinking water and ½ tsp salt. After that, stir and let it sit for about 10 minutes, then rinse with clean water.
2. Prepare a pan and pour enough water then add the aloe vera that has been washed clean into the pan. Then add 5 g of sugar.
3. Cook until it boils, then drain and store in a container.
4. Wash the betel leaves thoroughly. Then put it into the blender. Then blend until smooth and put into a tea bag.
5. Boil 275 ml of water to a temperature of 60 degrees Celsius. Then pour it into a glass and add a tea bag containing betel leaves. Wait for 10 minutes.
6. Clean the lemon, then cut it into 2. Remove the seeds from the lemon, then squeeze it and put it in a small glass
7. Then put the betel leaf water into the cooking pan until it boils then turn it off. Then add 5 grams of jelly powder and add 30 ml of lemon. Then stir until evenly mixed then put into a container. Wait until it cools.

CULINARY INNOVATION AND NEW PRODUCT DEVELOPMENT

8. Prepare a pan, then add sugar and water 1:1. Cook over medium heat then stir until dissolved and turn off the heat.
9. Prepare a glass, add betel leaf jelly, aloe vera jelly and enough liquid sugar. Then it's ready to be served.

Product Description

I will make a jelly ready to drink which is made from betel leaf extract, and rich in benefits, which has lowering cholesterol content, one of the benefits is it good for smooth digestion, then more feminine to reduce menstrual pain, and improve digestion. The aim of producing this betel leaf jelly drink is an innovation of betel leaves product.

The main focus is to replace betel leaves or what people used to know as "nyirih", so they can still do "nyirih" in a more practical and easier way, but still have the same benefits.

TRIAL PROGRESS (50 – 100 WORDS)

When doing the first trial I experienced a small problem where my jelly drink did not match my wishes, where the betel leaf jelly drink had too much jelly powder in it so it became too set. Then after trying it by the 4 chefs, their comments generally said it was too set so it could not be sucked and it was too sweet. The rest is good because the taste and smell of betel leaves are still there.

NOTES :

1. —
2. Diberi sensasi manis dr bahan lain supaya flavor sirih bisa dikurangi
3. mungkin perlu ditambahkan campuran buah atau nata de coco pada produk jellynya
4. Enak
5. Needs to be sweeter
6. rasa kurang manis, mungkin penyajiannya bisa jellynya d serut. sehingga ketika di minum bisa sekaligus dapat jelly dan airnya
7. Taste masih agak bland, bau overall masih agak terlalu dominan daun sirih, mungkin bisa ditambahkan aromatic lainnya agar bau sirihnya bisa agak samar
8. Untuk rasa lebih baik di buat manis untuk jelly sirih nya
9. —
10. agak kurang manis
