

## **CHAPTER V**

### **5.1 Conclusion**

There are so many healthy food demands of the local food industry. It makes the local food industry have to compete for issuing various innovations and good research and development products. We take advantage of this situation by introducing chips with a combination of fish and shallot.

This product we make for increased awareness of people in consuming fish, by changing fish in the form of different processed food but still tasty, healthy, nutritious.

### **5.2 Suggestion**

This product should have a more crisp texture, and should better highlight the flavor and aroma of the two main ingredients to make the product more memorable and more tempting.
