

CHAPTER V

CONCLUSION

5.1 Conclusion

There are so many healthy jam demands of the local food industry. It makes the local food industry have to compete for issuing various innovations and good research and development products. We take advantage of this situation by introducing our product which is Dragon Fruit Jam with Stevia Sugar.

The dragon fruit itself is rich in benefits like nutrients, high fiber, etc. we make this jam with stevia sugar with no calories which is safe for everyone to consume. We sure this product can complete with other product in the market. Especially supported by the market demand for healthy products.

5.2 Suggestion

Dragon fruit jam has another two modifications of recipe which is adding the lime or pectin for the thickness of the jam. The reason why pectin must be added on the jam is because without the pectin, the jam will be less thick. For the other recipe, lime must be added because it may help preserving the low-grade of the original acid.
