

# Company Profile

# Greenahoi Food

We create a business based on healthy food, which uses vegetable as the main ingredient of our product. Now you can enjoy the vegetable in a unique way.

**BRING NUTRITIOUS  
FOOD INTO YOUR  
HOME**

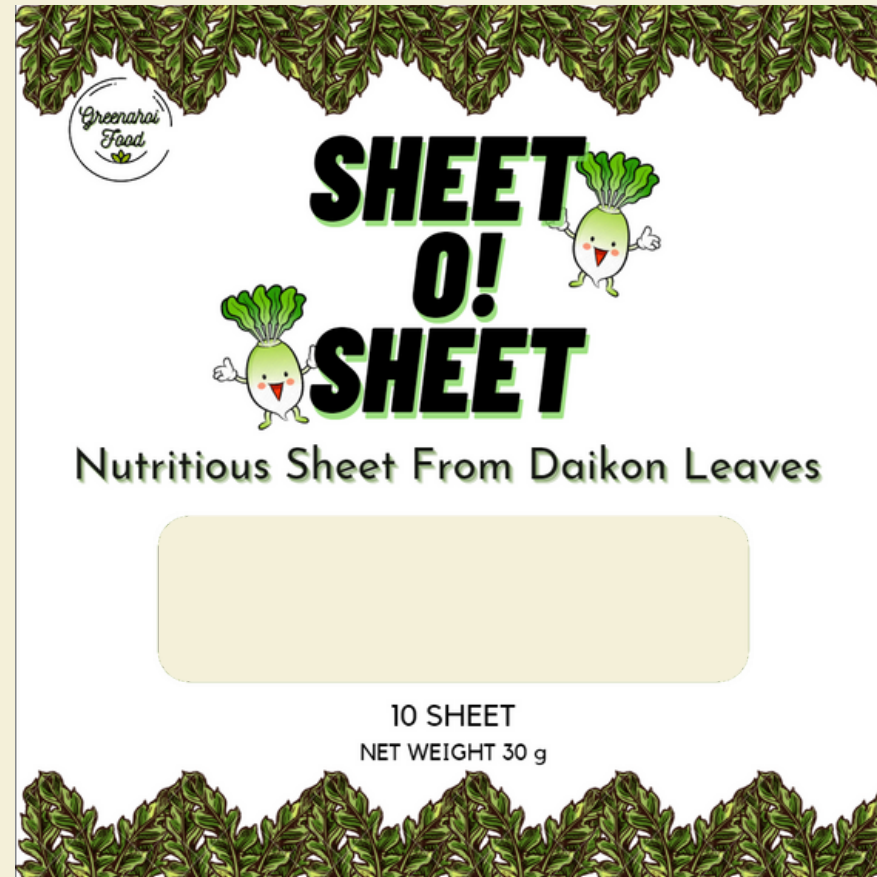

Our home-based production will be centered at Lembang-Bandung, West Java. We will be affiliated with farmers during the process to supply fresh ingredient every day.

Vision:

Committed to developing high-quality products for the global market.

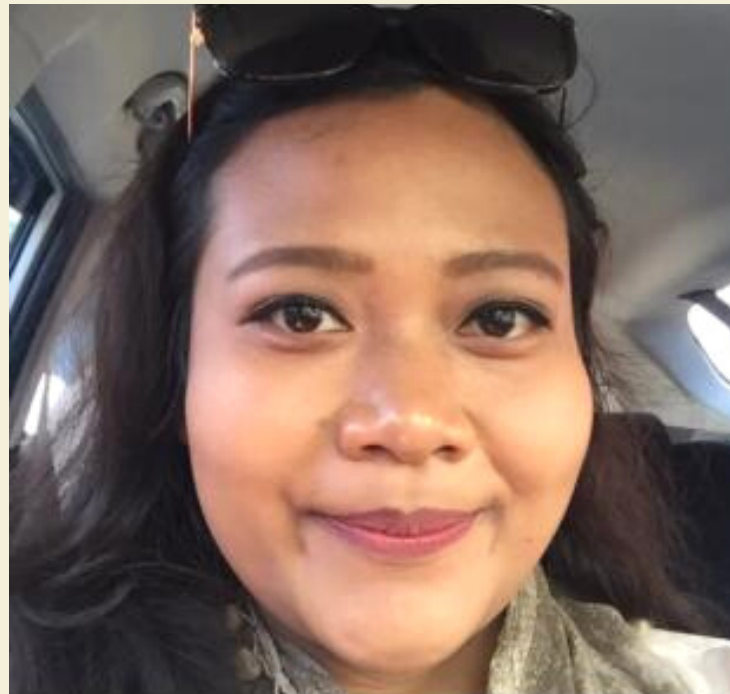

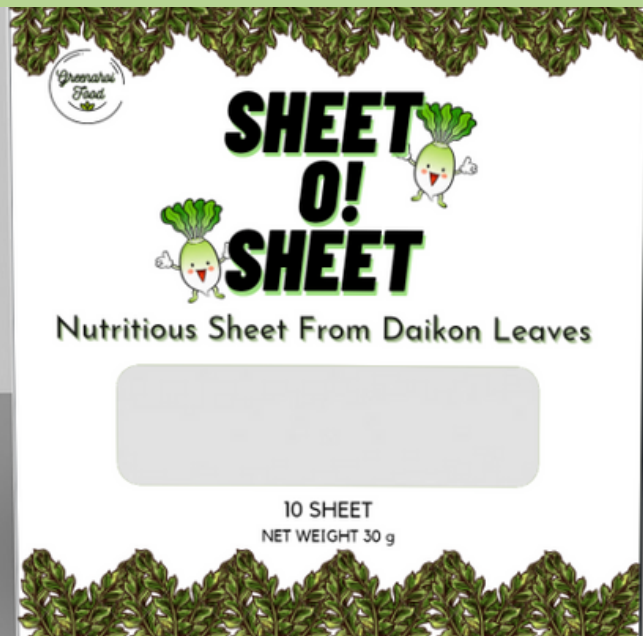

Mission:

- Produce nutritious products for consumer
- Develop innovative products that meet consumer needs
- Build brand awareness to create consumer interest

This product offered a new way to use food waste as such daikon leaves to become a new source of nutrients. With using vegan friendly ingredients, it's safe to be consumed by vegan and all. This product is a good pair with rice. For example, it could be used as a wrapper for sushi rolls or onigiri, tasty topping on top of a dish, or could be consumed as tasty snack.
