ACKNOWLEDGEMENT

The writer praise God for the blessing, opportunity and mercy given to me to finish this research. The research entitled “Research and Development of Banana Peel Cereal” is the final requirement to gain a graduate from Ottimmo International Master Gourmet Academy. There are a lot of suggestions, motivation, and supports given to me in finishing this research.

The writer would like to thank to those who have encouraged me with suggestions and motivation. First of all, The writer would like to send my gratitude to Chef Zaldy Iskandar as the Dean of Ottimmo International Master Gourmet Academy. Second, the writer truly thank to Nia Rochmawati as my first advisor for her supervision and suggestion in helping me to finish my report. The writer do thank to my examiners for the suggestions, supervision and the important contribution in fixing this research. Furthermore, the writer would like to thank to my parents for the prayer, affection and support. For all my close friends who always support me and be a good listener for every problem the writer have.

Finally, the writer send my gratitude to everyone who has a role to the success of this research. Researcher hopes that this research is not only beneficial for the researcher but also for the reader.

Executive Summary

Banana peel cereal is made from banana peel as the main ingredient. Banana peel is organic waste in large amount which has not been watched by people. Truthfully, banana peel has many benefits but many people do not know the benefits well. The process of producing banana peel cereal is quite easy but it takes a long time.

Banana peel cereal is a practical healthy food. The main market of this product is working people who prefer healthy food. Though the price is affordable but this product is healthy food which can be consumed by public. The price is Rp. 16.052.
