

RIND JAM

COMPANY PROFILE

“
TO MAKE A BETTER ENVIRONMENT ”

To make a better environment through our products, is our vision as a company.

We are here to turn waste into something better and useful

What is Rind Jam?

100% Homemade

Use environment friendly
ingredient

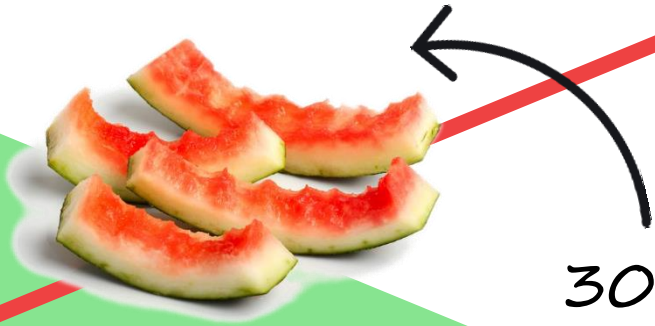

A Jam product

Made using only the high
quality ingredients

Why?

30% of the total weight of watermelon is the rind

The rind is being thrown out after the flesh had been eaten, leading to waste buildup

We want to find a solution to help

So we turn the waste into something edible,
RIND JAM

We want to introduce the idea of using watermelon rind waste through our product.

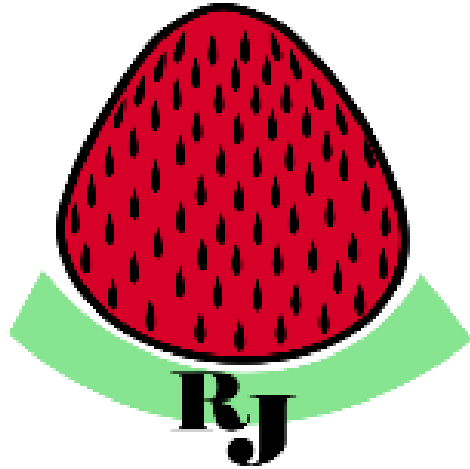

Why Choose Rind Jam?

- ✓ Protein 4x higher than regular strawberry jam
- ✓ Affordable price
- ✓ Tasty and Healthy
- ✓ 100% Homemade

Using watermelon rind waste as a filler in our jam can help in reducing waste buildup—that could possibly lead to pollution

RIND JAM
