

## CHAPTER 1 INTRODUCTION

### 1.1 Background of The Study

In the age of technology that is increasingly developing and growing, the economy is increasing, it is necessary to improve the quality work and the quality of reliable and creative human resources. So from that, educational institutions or universities implement a system that can create a reliable and creative workforce in apply their knowledge in the world of work which in the end can reduce the unemployment rate in the country.

Thus we required to be able to master the knowledge received in the world of education and can apply it in the world of business or work. In apply their knowledge, students are given the opportunity to do Internship.

Internship This is meant to introduce myself to the real world of work so that we are not surprised after graduating from college. With the internship, students able to know, adapt, and analyze the existing environment

In the Internship as an experience towards a better world of work real. Internship activities carried out by students required to be able to apply the knowledge gained in lectures and apply it in the world of work. With the Internship, students can learn knowledge that is not obtained on the bench lectures and can learn new knowledge at the Hotel. Internship will shape students who is responsible for accepting the work assigned by mentor and able to provide solutions in solving existing problems. If the student during the Internship his work loyalty well, there is a possibility that this student will be recalled at the company or practice agencies to jointly improve the achievement of targets from company.
