ABOUT US

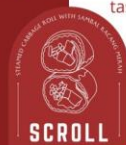

CV. Rejeki Indah is one of the companies engaged in culinary business. One of our products is "Scroll". Scroll is a vegetable roll product that is steamed and filled with red kidney beans and white tofu as the protein. Not only that, we also produce the sambal made from chili and red kidney beans as a sauce for our product that has never existed before. This product is the first modified product between vegetable roll and the sambal. In the future, CV Rejeki Indah will produce another unique and unprecedented modified product.

VISION

Being an innovative company by following the culinary market trends in creating unique and healthy food and beverage products for consumption.

MISSION

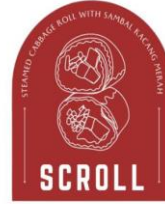

Creating a healthy food product that can be consumed by all people and providing a new and different taste in order to compete with other products.

STEAMED VEGGIE ROLL

The filling of steamed veggie roll are red kidney beans, white tofu and scallions that can strengthen the taste of steamed veggie roll. We used chinese cabbage as a roll because it has an elongated shape and a light color. Chinese cabbage can form a lot of rolls so that the product is not easily torn.

SAMBAL KACANG MERAH

The ingredients of the sambal are chilies, garlic, and shallot with red kidney beans as the main ingredient of this product.
