

PREFACE

As for the beginning, I would like to thank my Holy God, Jesus Christ for his blessings and spiritual guidance in order for me to complete this Research and Development report. The main purpose for this report is to help each student in Ottimmo to be creative and innovative as we have to create a whole new product that never been in Indonesia. One of the reasons why I come up with the idea of making Chrymum Jam is because I want to create a delicious condiment and have many healthy benefits.

During this process of completing this report, I received so much guidance and support. By this, I would like to express my gratitude to the names below:

1. My family who support and help me in personally.
2. Mr. Andreas, my advisor who helped me so many things with this research and development.
3. To all the teacher in Ottimmo International for the education and also their knowledge that have been given to all the student.
4. To all my friend that help me and also support me to do this research
