EXECUTIVE SUMMARY

Nata de Melon is an unusual topping for dessert because all the ingredients from melon will be used except skin. why because many people will waste the unflavor part and hard, that makes me to make this product. This product will not use preservatives so it will be healthier for consumption.

Nata de Melon is the alternative product Nata de coco that made from melon. Melon is a very good choice because it contains a lot of vitamins and fiber. This product will be packaged in a standing pouch and will be contain 500gram/package and will be sold for Rp.27.600 each. Hope this product can serve with good quality and healthy
