PLAGIARISM STATEMENT

Plagiarism is to present someone else's ideas as my own. Where material written by other people has been used (either from a printed source or from the internet), this has been carefully acknowledged and referenced. I know that plagiarism is wrong. I understand what plagiarism is and am aware of the University's policy in this regard. I know that I would plagiarize if I copy sentences or paragraphs from a book, article or Internet source without proper citation. I know that even if I only change the wording slightly, I still plagiarize when using someone else's words without proper citation.

I declare that I have written my own sentences and paragraphs throughout my essay. I declare that this assignment is my own original work.

EXECUTIVE SUMMARY

Coffee cake with avocado seed powder is made out of avocado seed that is processed into powder. We use this as a substitute for the regular flour which makes the cake more healthy than any other since it uses less gluten that is normally found in regular flour. It's a great substitute because avocado seed powder can reduce cholesterol and prevent diabetes so it is a great way to be healthy while enjoying a dessert.

This invention is crucial to me as it may help many people live better lifestyles. By utilizing nutritious ingredients, our products have an identical flavor and offer several medical benefits to the body. The Fresh ingredients are used in this dish, which can encourage many individuals to consume less processed foods and fewer chemical substances.
