## APPENDIX

### 1. Approved recipe

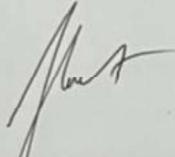

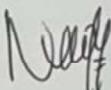

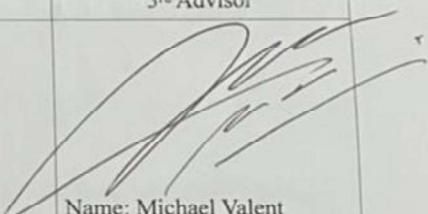

#### RECIPE BACKGROUND (50 – 100 WORDS)

Most of the jam made and taste sweet rather than savory, and I use potato to make savory spread jam because potato has a soft texture when it's mashed and instead of consuming white bread which has lots of calories and preservatives and tends to be unhealthy, potatoes can be substituted for white bread as a source of carbohydrates and eaten with other food dishes that are healthier, because the nutrients contained in potatoes include carbohydrates, minerals (iron , phosphorus, magnesium, sodium, calcium, and potassium), protein, as well as vitamins especially vitamins C and B1. In addition, potatoes also contain fat in relatively small amounts, namely 1.0 – 1.5%.

**NOTES** :

- Taste just like a heavily spiced mashed potato
- Kayak bergedel mentah
- Bukan jam, tp mashed potato 😞
