

## **CHAPTER V**

### **CONCLUSION & SUGGESTION**

#### **5.1 Conclusion**

Pepes papaya skin is a deep fry papaya skin that being processed into a pepes. Many benefit from consuming pepes papaya skin, from the papaya skin itself to the chili have many vitamin, and fiber. The price also affordable which is Rp 20.000,- and can be consumed by any people from teenagers to adult. The product distributed via online first, and then distribute it to the school canteen, church cafeteria, and open a store in the west of Surabaya.

#### **5.2 Suggestion**

1. I will try to make a new invention about the fruit of papaya
2. I will make the improvement on taste
3. I will try to lower the production price by making chili garden and papaya garden
