

CHAPTER V

CONCLUSION AND SUGGESTION

5.1 Conclusion

Chocolate flavoured ravioli snack is great innovation, which offers new culinary experience to people. It combines both traditional culture from Indonesia and Italy. People can taste new product on traditional flavours. Carob is used as a chocolate substitute. It gives the same colour, aroma, and taste. Furthermore, the utilization of carob also gives a health benefit. Carob has a high fiber and caffeine free. This product can be enjoyed by people who cannot consume caffeine. This means that chocolate flavoured ravioli has even a larger market among the customer.

5.2 Suggestion

Chocolate flavoured ravioli requires safe and proper packaging to keep it in a good quality and shapes during the supply chain. Since, this product is natural without preservatives, its shelf-life is not that long. Especially its about to start to grow in international market trading platform, it needs to be kept as long as possible, so its quality is not fading through time.
