

## **CHAPTER V**

### **CONCLUSION AND SUGGESTION**

#### **5.1 Conclusion**

Traditional medicine which is the benefit of medicinal plants that have been changed by the community which is believed from time to time until now, people prefer to use traditional herbal medicine with plants or spices because these are easy to obtain and save costs and do not contain chemicals.

#### **5.2 Suggestion**

Indonesian herbal medicine in society which is expected to be able to help in terms of curing illness and being able to maintain a healthy body without having to have chemical drugs that contain side effects. Indonesian people should know the history of traditional herbal medicine because it comes from our ancestors. The government should be able to pay attention and care about the traditional herbal medicine business so that this traditional medicine will develop more so that it can help people improve their business results .
