

CHAPTER V

CONCLUSION AND SUGGESTION

5.1 Conclusion

These cookies are made from cassava flour because it has high carbohydrates and has fiber as well as the main ingredient is cassava but I make it flour and it has a purple colors. besides that, this sweet potato flour also has many benefits and can make new cookie innovations because usually cookies are always chocolate chips and so on and in this era I hope these sweet potato cookies can be known by Indonesian people and so on

5.2 Suggestion

These purple sweet potato cookies have good and good packaging so that the quality remains safe to be sent outside Surabaya or within Surabaya because these cookies are snacks and the shelf life can last 1 month but the jar must be tightly closed and stored in the right place so that the quality of the cookies is not easily damaged and soggy.
