

CHAPTER V

CONCLUSION and SUGGESTION

5.1 Conclusion

The conclusion of this project is that it is quite good. The making of duck nugget bumbubetutu have a purpose so we can promote bumbubetutu which is a traditional food from Indonesia to the common market. And also using duck meat as the main ingredient is good because dish made from duck meat in Indonesia is not that many compared to the supply of duck meat in Indonesia.

5.2 Suggestion

The taste of this nuggets is not strong enough because of when seasoning it pre steam it needs more seasoning. So we need to season it a little bit stronger pre-steam so after it gets season it is balanced. And for the texture it is flaky and needs to be chewier to we get a satisfying bite. The lack of chewiness can happen because of the fattiness of the duck because the fat content of duck and chicken is different and we can make it chewier by adding more a little bit cornstarch.
